**ZONA COMUN Roads**

Open

**Emilio Mitre CHANNEL - Parana River**

Open

**SAN LORENZO port complex**

Port remains open

**ROSARIO port complex**

Port remains open

**NECOCHEA**

Port remains open

**BAHIA BLANCA**

Port remains open

**Important notices:**

**EMILIO MITRE CHANNEL**

Under Dredging/maintenance works since May 19<sup>th</sup>, till October or November this year, subject to sedimentation processes behave  
Operational works to be done by dredger and suction "Niccolo Machiavelli" (IMO 9500211), operating between Km. 16.400 to Km. 23.000 and Km. 29,400 to km. 36,500 of that waterway.

Restrictions during navigation in/outbound on mentioned area. Coastguard will control and regulate navigation on channel to cross the 'working zone' subject to tide and prevailing weather conditions on channel, by convoys of vessels in/outbound, subject to vessels dims and performing draft.

Agents must required 'permission' to cross mentioned area with at least 12hrs in advance.

Coastguard recommends vessels not to exceed **34 feet fw draft**, to maintain standards of safety of navigation, environmental preservation and protection of waterways.

**Martin Garcia Channel** is under MAINTENANCE WORKS.

MAX recommended ARRIVAL/SAILING DRAFTS for NUEVA PALMIRA OR PUNTA DEL ARENAL, via **MARTIN GARCIA** channel as follows:

			Draft recommends by river Pilots
Up to	LOA 200m	B 32.6m	draft 8.00m
	LOA 200m-245m	B 32.6m	draft 7.70m
	LOA 245m-255m	B 32.6m-35m	draft 7.30m
	LOA 255m-266m	B 35m-41m	draft 7,30m
	LOA 266m-277m	B 41m-44m	draft 7.30m

**NUEVA PALMIRA- EMILIO MITRE CHANNEL**

NEW DRAFT RESTRICTION for vessels arriving/sailing to/from Nueva Palmira via **Parana Bravo - Emilio Mitre Channel**,

As per pilots the max recommended draft - subject to tide - in the region of 9,20 / 9,50 m depending on the high tide available and prevailing winds, always considering and max LOA 230mtrs

Best regards
