Description of event: ATTACK

NW Warri, Nigeria

A report has been received stating that an army houseboat came under attack by gunmen on board two speed boats. The report also states that about 20 persons were killed, the houseboat sunk and the military's weapons taken by the attackers. Clearwater will continue to monitor the situation and update as more information becomes available.

All vessels within the vicinity of this alert are advised to operate with heightened level of security and invited to report suspicious activity to

watchkeeper@clearwatertracking.com

Vessels within a 100 nautical mile radius should increase their anti-piracy deterrents in line with Best Management Practices 4. This should include increased twenty four hour anti-piracy watch keeping and radar monitoring. Vessel hardening should be checked and where appropriate bolstered.

Clearwater will provide updates associated with this alert for forward transmission when available.
